Excel Engineering Consultants, Inc.
122 Wilshire Blvd.
Casselberry, FL 32707

July 10, 2007

I have worked with Excel Engineering for about 10 years. My current 8 acres of land, located in Regency Industrial Park, would have hit a dead end had it not been for Excel's knowledge with FDEP and SFWMD laws and guidelines. After I bought this piece of property I was told that others spent money trying to get it developed, but were denied. Excel's understanding allowed for a creative answer to my problem and the ability to resolve what others could not, which allowed my project to move forward.

I have recommended Excel to others over the years and I continue to do so today. They are quick to take on a project, move forward with it, and lead with experience, knowledge, communication, and professionalism.

A handwritten signature in blue ink, appearing to read "Dennis Lapin".

Sincerely,

Dennis Lapin
